MISSION

To help clients achieve their goals by providing assistance in reducing time consuming and costly administrative and logistics operating procedures in international transactions.

I am committed to providing personal, professional, and courteous service based on the principles of trust, loyalty, and integrity to business owners and C-level executives who recognize the need for improvement.

Norman C. Buehler
President

Have you reviewed your international operating procedures recently to assure that you are meeting all government regulations and that your procedures are the most cost effective?

Bravid International, LLC has the expertise to help companies avoid fines or unintended violation of regulations, errors in documentation, shipping / receiving delays, and to reduce operating costs. Please click on [exports](#) or [imports](#) and review the questions to see if any of them are a concern. If so, I can help.

EXPERIENCE

I have over thirty years experience managing sales administration and logistics – both domestic and international. I have written operating procedures, negotiated freight rates and warehouse contracts, monitored freight forwarder/customs broker performance and cost, managed export/import government regulation compliance, and controlled the flow of incoming and outgoing goods through the supply chain.

SERVICES

- Evaluate current procedures and identify problem areas. This typically includes document review and cost analysis of at least four shipments.
- Implementation of new and updated procedures to ensure compliance with applicable regulations and efficient supply chain management.
- Prepare operating procedures in CD format.
- Provide export and/or import training. Please [click here](#).
